

Elba

3 COLOURS / 3 SIZES / 1 FINISH / 0 SPECIAL PIECES

Keeping in mind the sediments which gradually accumulate in the river beds, the Elba collection stands out with its discreet and harmonious look, transmitting a sense of calm and nature to all areas.

Created to meet the needs of contemporary architecture, and perfectly suited for both commercial and residential spaces, Elba is a full body extruded porcelain with a PTV+36 finish.

The colour representations shown in this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of our floor tiles there may be a small variation in the PTV value. The slip resistance values are correct at the time of testing and represent the standard production value. Inadequate cleaning and maintenance will lead to significant reduction in the slip resistance of any tiles. The pendulum test results have been displayed in line with H&S Executive guidelines whereby 0-24 represents high slip potential, 25-35 moderate slip potential & 36+ represents a low slip potential.
