Buk

5 COLOURS / 8 SIZES / 2 FINISHES / VARIOUS SPECIAL PIECES

Buk shows a slate-like appeal following the directions and shades of the stone veins. The graphic reproduces natural splits and deep textures, revealing a subtle metallic sheen. Available in 8 formats ranging from 9.7x60cm up to 120x120cm, including 20mm tiles, Buk is an all-encompassing range suitable for any space.

The colour representations shown in this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of our floor tiles there may be a small variation in the PTV value. The slip resistance values are correct at the time of testing and represent the standard production value. Inadequate cleaning and maintenance will lead to significant reduction in the slip resistance of any tiles. The pendulum test results have been displayed in line with H&S Executive guidelines whereby 0-24 represents high slip potential, 25-35 moderate slip potential & 36+ represents a low slip potential.
