

Dawson Mineral

5 COLOURS / 15 SIZES / 2 FINISHES / VARIOUS SPECIAL PIECES

An authentic and modern stone effect across both indoor and outdoor products, Dawson Mineral is a replica of Belgian Ardennes stone. The lightly brushed-hammered surface combined with fine veins and a homogeneous grain perfectly mimics natural stone. The careful balance of richness and detail and naturalness of the surface creates a modern stone effect range with discreet elegance – ideal in contemporary design settings.

The colour representations shown in this data sheet are as accurate as the limitations of the printing process will allow. Due to the manufacturing process of our floor tiles there may be a small variation in the PTV value. The slip resistance values are correct at the time of testing and represent the standard production value. Inadequate cleaning and maintenance will lead to significant reduction in the slip resistance of any tiles. The pendulum test results have been displayed in line with H&S Executive guidelines whereby 0-24 represents high slip potential, 25-33 moderate slip potential & 36+ represents a low slip potential.
